## Education

---

**BSc Computer Science First Class Honours (1<sup>st</sup>)**

Sep 2019 – Sep 2022

University of Lincoln

**Frontend Developer Bootcamp**

Sep 2022 – Feb 2023

Frontend Simplified

## Experience

---

**Primary Frontend Developer**

Mar 2023 - Current

Haywyre LLP

- Translated design concepts into complete web pages, while prioritizing effective client communication and ensuring prompt project completion
- Assumed sole accountability for the Frontend development of prominent financial platforms such as [Creation Finance](#) and [BNP Paribas Personal Finance](#). Successfully completed comprehensive redesign and optimization initiatives for the entire website of Creation Finance using best practice CSS techniques.
- Developed and updated components sitewide for [Toyota Manufacturing UK](#), contributing to the modernization of the website.
- Designed an intuitive and seamless user interface for Universal Admin, an internal web app serving as a form manager. Ensured user-friendly navigation while incorporating custom JavaScript, and bespoke styling to achieve a sophisticated and visually appealing UI.
- Demonstrated creative freedom in showcasing UI/UX design skills using Figma and Adobe XD. Created web designs for local businesses, blending artistic flair with user-centred principles.

**Frontend Developer Internship | [Certificate](#)**

Sep 2022 – Feb 2023

Frontend Simplified

- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions and carousels
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination and dynamic routing
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment

**Click and Collect Assistant**

Oct 2021 – Aug 2022

Tesco Stores Ltd

- Developed exceptional customer service skills through regular interaction with customers and resolution of their inquiries, complaints, and requests.
- Acquired hands-on experience in logistics and operations management, with a focus on efficiently picking, packing, and delivering customer orders.
- Demonstrated strong teamwork and communication abilities through successful collaboration with colleagues, clear and effective interpersonal communication and meeting of performance targets.

## Personal Projects

---

**Frontend Simplified Internship | [josephmoulton.com](http://josephmoulton.com)**

- My personal website highlights my programming skills and contains the source code and website links for the projects listed below

**Frontend Simplified Internship | [Website](#) | [GitHub](#)**

- Transformed a static single page application using **React, JavaScript, HTML and CSS best practices**.

**Flicker | [Website](#) | [GitHub](#)**

- Fetched data from TMDb API to allow users to view information about movies e.g. (cast, crew and finances)
- Created a filter system along with pagination using **React, JavaScript, HTML and CSS best practices**.

**Airbnb Clone | [Website](#) | [GitHub](#)**

- Created an Airbnb clone using **React, JavaScript, HTML and CSS best practices**.
- Integrated Mapbox for custom maps and location data for each of the properties in the API.

### **Admin Dashboard | [Website](#) | [GitHub](#)**

- Utilised MaterialUI alongside Formik and NivoCharts to create complete admin dashboard using **React, JavaScript, HTML and CSS best practices.**

### **Signal Clone | [Website](#) | [GitHub](#)**

- Fully utilised firebase to allow for authentication and registration of users, and store user generated data.
- React native allowed for a fully dynamic website and allows for a seamless transition from web to mobile.

### **Technical Skills**

---

**Languages:** HTML5 | CSS3 (+ SCSS, BEM, Tailwind) | JavaScript ES6+ | Python (MTA Certified)

**Frameworks:** React (+ hooks) | React Native | Next.js | Material-UI | Redux | Expo | Angular | CMS (emp, dot)

**Technology:** NPM | Git | Yarn | React dev tools | Firebase v9 | GitHub | Bitbucket | Figma | Adobe suite | Atlassian
